# superquadra

Loose and organic lines form a very contemporary design that updates the concept of the traditional tiles. The surface of Superquadra, with the movement of tones and small dots randomly printed by the iron molder, make its proposal even more interesting.

Líneas sueltas y orgánicas forman un diseño muy contemporáneo que actualiza el concepto de las baldosas tradicionales. La superficie de Superquadra, con el movimiento de tonos y pequeños puntos impresos al azar por el molde de hierro, hacen que su propuesta sea aún más interesante.

# apuano oro

The Apuan Alps overlook the coast of Tuscany with majestic, white slopes.
The white Calacatta marble style creates the illusion of snow-covered peaks throughout the year.
It’s little wonder that this marble has been prized by craftsmen and artists for centuries. The great Michelangelo created his masterpieces from Calacatta marble. Now the APUANO ORO collection lets you fill your space with this timeless beauty. The white background streaked with gray and gold veins is beautifully reminiscent of the renowned Apuano Oro marble. Let the array of sizes and mosaics be your muse, as you create your own masterpiece in natural or polished marble.

Los Alpes Apuanos dominan la costa de la Toscana con sus majestuosas laderas azules y blancas.
El estilo del mármol blanco Calacatta crea la ilusión de picos nevados durante todo el año. No es de extrañar que este mármol haya sido apreciado por artesanos y artistas durante siglos. El gran Michelangelo creó sus obras maestras a partir del mármol Calacatta. Ahora, la colección Apuano Oro te permite llenar tu espacio con esta belleza atemporal. El fondo blanco con vetas grises y doradas es un hermoso recuerdo del renombrado mármol Apuano Oro.
Deja que la variedad de tamaños y mosaicos sea tu musa, mientras creas tu propia obra maestra en mármol natural o pulido.

Roccia di Roma reproduces Roman Travertine, the most classic marble, that translates to the timeless beauty of the eternal city. In Roccia di Roma we used the crosscut technique, which cuts the marble block in the opposite direction of the vein.

A more daring and inspiring suggestion for classic or contemporary spaces.

Roccia di Roma reproduce el Travertino Romano, el mármol más clásico, que se traduce en la belleza atemporal de la ciudad eterna. En Roccia di Roma usamos la técnica de corte transversal, que corta el bloque de mármol en dirección opuesta a la veta.

# storm

A storm approaches, inevitable yet unpredictable. Rather than recoil from its raw beauty and immense power, we are moved to pause in quiet appreciation. And inspired to create the STORM collection of marble style tiles.

Fluid and expressive gray veins are reminiscent of rolling thunder clouds. Strong yet soothing, whether natural or polished. Multiple sizes and mosaics stir up a tempest of design ideas. Capture the subdued serenity filled with an impetuous electric charge. And fill your space with a beauty you can see and feel.

Se acerca una tormenta, inevitable e impredecible. En lugar de retroceder ante su belleza cruda e inmenso poder, somos motivados a detenernos en una tranquila apreciación. E inspirados para crear la Colección Storm de azulejos de estilo mármol.

Vetas grises fluidas y expresivas recuerdan a las nubes de truenos rodantes. Fuerte pero calmante, ya sea natural o pulido. Múltiples tamaños y mosaicos provocan una tormenta de ideas de diseño. Captura la serenidad sutil llena de una carga eléctrica impetuosa. Y llena tu espacio con una belleza que puedes ver y sentir.

# tivoli

Tivoli combines the high durability of porcelain with the perfect reproduction of a classic Travertine from the Tivoli region in central Italy. Tivoli emulates natural stone that is indistinguishable to even the most discerning eye.

For this collection we used the vein cut technique, which cuts the block of marble in the direction of the material's vein. In four colors, Tivoli can be used in more elaborate or more minimalist spaces.

# mont blanc

Mont Blanc is a sustainable proposal that reproduces an already classic white quartzite in porcelain slabs. The Mont Blanc surface reveals the stone formation in crossed layers, sometimes highlighting fragments of quartz in soft tones, sometimes compact white, and the result is a subtle quartzite, with veins that intersect in white tones and warm shades of gray.

Mont Blanc es una propuesta sostenible que reproduce una cuarcita blanca ya clásica en losas de porcelana. La superficie de Mont Blanc revela la formación de la piedra en capas cruzadas, a veces resaltando fragmentos de cuarzo en tonos suaves, a veces blanco compacto, y el resultado es una cuarcita sutil, con vetas que se intersectan en tonos blancos y cálidos tonos de gris.

Every inspiration has a color and creating an inspiring pantone is the concept of Color Market. Color with essence, meaning, history and tailored for interior design.
The classic English brick is the basis of color. Surface molded by hand that has been exposed to weather over the centuries undergoes a transformation through painting.
Colors have gone through a transformation along the creative process, White colors gained polar shades, green shades translated landscapes and flavors, yellow shades are filled with personality and attitude, and much more to inspire you.

Cada inspiración tiene un color y crear una paleta de colores inspiradora es el concepto de Color Market. Color con esencia, significado, historia y adaptado para el diseño de interiores.
El ladrillo inglés clásico es la base del color. La superficie moldeada a mano que ha sido expuesta al clima durante siglos sufre una transformación a través de la pintura.
Los colores han pasado por una transformación durante el proceso creativo, los colores blancos adquirieron tonos polares, los tonos verdes traducen paisajes y sabores, los tonos amarillos están llenos de personalidad y actitud, y mucho más para inspirarte.

# highland lake

Inspired by a beautiful region in the tranquil Tennessee countryside where picturesque, clear lakes reflect the high hills and abundant colors that surround them. The HIGHLAND LAKE Collection masterfully mimics this rippled reflection, featuring an artisanal watercolor ceramic technique crafted into glossy wall tiles.

The palette ranges through the four seasons while variations in surface depth create a sense of movement and softness.The handmade aesthetic brings a sense of natural design while adding a splash of modern charisma – helping you reflect your own individual style.

Inspirada en una hermosa región de la apacible campiña de Tennessee. Los lagos cristalinos reflejan las altas colinas y los abundantes colores que los rodean. Una técnica artesanal de cerámica acuarelada permite que estas brillantes baldosas de pared imiten magistralmente esa reflexión ondulada.

La paleta abarca las cuatro estaciones del año, mientras que las variaciones en la profundidad de la superficie crean una sensación de movimiento y suavidad. La estética hecha a mano aporta una sensación de diseño natural, a la vez que añade un toque de carisma moderno.

# lighthouse

Like the amazing Portofino landmark that inspired it, the LIGHTHOUSE Collection serves as a beacon to anyone searching for fresh design and innovative looks. From its precariously picturesque position on rocky cliffs that jut into the ocean, the Portofino lighthouse offers a unique vantage point of the shoreline, and the beautiful effects the shifting weather has upon the sea and sand.

Expanding upon the Portofino Collection color palette, these 2 x 10 glossy wall tiles add character to any space. Flat and relief pieces, known as stairs after the steps leading to the top of the lighthouse tower, are ready to elevate any design.

Al igual que el increíble hito de Portofino que lo inspiró, la colección Lighthouse sirve como un faro para cualquiera que busque un diseño fresco y una apariencia innovadora. Desde su posición pintoresca y precaria en acantilados rocosos que se adentran en el mar, el faro de Portofino ofrece un punto de vista único de la costa y los hermosos efectos que el clima cambiante tiene sobre el mar y la arena.

Ampliando la paleta de colores de la colección Portofino, estas baldosas brillantes de 2 x 10 para paredes agregan carácter a cualquier espacio. Las piezas planas y en relieve, conocidas como escaleras por los escalones que conducen a la cima de la torre del faro, están listas para elevar cualquier diseño.

# puraforma

A timeless encounter of monochromatic tones, where versatility is the dominant note and the reliefs are the true protagonists. With long, tapered lines, they connect with all spaces. In a matte finish, the textures awaken a smooth and sophisticated dynamism. And the incessant movement, provides amplitudes like true visual decorative choreography.

Puraforma is creative rhyme, it is an encounter of possibilities. An authentic expression of a beautiful aesthetic with technical and formal accuracy.

Un encuentro atemporal de tonos monocromáticos, donde la versatilidad es la nota dominante y los relieves son los verdaderos protagonistas. Con líneas largas y estilizadas, se conectan con todos los espacios. Con un acabado mate, las texturas despiertan un dinamismo suave y sofisticado. Y el movimiento incesante proporciona amplitudes como verdaderas coreografías decorativas visuales.

Puraforma es una rima creativa, es un encuentro de posibilidades. Una expresión auténtica de una estética hermosa con precisión técnica y formal.

Transparency reveals the new vintage.
Post-war industrial glass translated into two versions: One with a more subtle relief, and another that reproduces the fluted pattern. Small rectangular pieces composed in 12x24 format for walls reinterpret the French frames of the time and allow for a retro touch in contemporary environments.
Verre. Because walls need manifestation.

La transparencia revela el nuevo vintage.
El vidrio industrial de la posguerra se traduce en dos versiones: Una con un relieve más sutil y otra que reproduce el patrón acanalado. Pequeñas piezas rectangulares compuestas por fragmentos de 12 x 24 para paredes reinterpretan los marcos franceses de la época y permiten un toque retro en entornos contemporáneos.
Verre. Porque las paredes necesitan manifestación.

Impressionist Artists didn’t strive to capture the exact appearance of reality, but rather the emotion and feeling of real life. Colors and textures that pull you in more than precise features ever could. That is the inspiration for the VIVANT Collection.

Distinct waves give each tile the appearance of a flourished stroke by a master painter. Even the lightest shades have a gravity all their own that draws you in. Each hue is available in matte or glossy finish. Adding to the rich palette of this collection, are the LIGNE matte relief pieces that provide additional texture to create even more possibilities.

Like the impressionist art that inspired this collection, rooms created with VIVANT aren’t just seen. They’re experienced.

Los artistas impresionistas no buscaban capturar la apariencia exacta de la realidad, sino la emoción y el sentimiento de la vida real. Los colores y texturas te atraen más que las características precisas podrían hacerlo. Esa es la inspiración para la colección VIVANT. Ondas distintivas dan a cada baldosa la apariencia de un trazo florecido de un pintor maestro. Incluso las tonalidades más claras tienen una gravedad propia que te cautiva.

Cada tonalidad está disponible en acabado mate o brillante. Añadiendo a la paleta rica de esta colección, están las piezas Ligne de relieve mate que proporcionan textura adicional para crear aún más posibilidades.Al igual que el arte impresionista que inspiró esta colección, las habitaciones creadas con VIVANT no solo se ven. Se experimentan.

# adrock

Adrock was idealized with the ambition of translating the thought of “less is more” into a design proposal that, from a fusion of materials such as limestone, cement and basalt, creates a striking but alluring matte surface.
The veins and elements of natural stones in this chromatic balance converges to something unique: A contemporary view of the layers of time.

Adrock fue concebida con la ambición de traducir el pensamiento de “menos es más” en una propuesta de diseño que, a partir de una fusión de materiales como la piedra caliza, el cemento y el basalto, crea una superficie mate llamativa pero atractiva.
Las vetas y elementos de piedras naturales en este equilibrio cromático convergen en algo único: una visión contemporánea de las capas del tiempo.

# ipanema

Ipanema, eternal inspiration, was designed through the creative eye of Oskar Metsavaht.
From art to design, landscape to geometry - Neotropical is the concept here.
A contemporary and “carioca” look. A particular path designed on chromatic compositions. Black and white tones of small stones found on Portuguese boardwalks were translated into close-ups. The pure geometry of the square or sinuosity of the mosaic that alters the scale and expands the beauty of famous “cariocas” sidewalks.

Ipanema, fuente de inspiración eterna, fue diseñada a través del ojo creativo de Oskar Metsavaht. Desde el arte hasta el diseño, del paisaje a la geometría - aquí el concepto es neotropical.
Una apariencia contemporánea y “carioca”. Un camino particular diseñado en composiciones cromáticas. Los tonos en blanco y negro de las pequeñas piedras que se encuentran en las pasarelas portuguesas se tradujeron en primeros planos. La geometría pura del cuadrado o la sinuosidad del mosaico que altera la escala y amplía la belleza de los famosos aceras “cariocas”.

# trillo

Dating back before the 16th Century, music has always been a timeless past time of Italy. From the storytelling of the lyrics, emotions portrayed through instruments, and even focusing on the closest details of the rich vibrato tones and decorative trillo effects.

The pattern and visual markings on the Trillo Collection pieces represent the consistent iteration of details throughout the space. Adding a slight visual appeal to the glossy look on the lines, decorative is an understatement - Trillo is a necessity.

Con orígenes que se remontan al siglo XVI, la música siempre ha sido un pasatiempo atemporal en Italia. Desde la narración de las letras, las emociones retratadas a través de los instrumentos, e incluso enfocándose en los detalles más cercanos de los ricos tonos de vibrato y los efectos decorativos de trillo.

El patrón y las marcas visuales en las piezas de la Colección Trillo representan la iteración constante de detalles en todo el espacio. Agregar un leve atractivo visual al aspecto brillante de las líneas, es quedarse corto al describir lo decorativo que es Trillo - Trillo es una necesidad.

Throughout history, the beauty of nature has inspired both art and science. The ARCHITECH OAK collection reflects this dual inspiration. The design draws on a variety of natural wood types, resulting in a unique grain pattern.

That grain is brought to life with science – advanced technology that delivers stunning design quality along the grain veins. The result is an attractive, modern wood look that is as inviting to the touch as it is to the eye.
For your next project, branch out to the innovative style of ARCHITECH OAK.

A lo largo de la historia, la belleza de la naturaleza ha inspirado tanto el arte como la ciencia. La colección Architech Oak refleja esta doble inspiración. El diseño se basa en una variedad de tipos de madera natural, lo que resulta en un patrón de granilla único.

Esa granilla cobra vida gracias a la ciencia, una tecnología avanzada que ofrece una impresionante calidad de diseño y micro relieve a lo largo de las venas de la granilla. El resultado es una atractiva apariencia moderna de madera que es tan atractiva al tacto como a la vista. Para su próximo proyecto, explore el estilo innovador de Architech Oak.
